Confessions of a Wife

AN UGLY LITTLE BOY.

Finally Donna gravely handed the girl baby she had held in her arms.

"This baby," said the good sister, "is a lovely little girl, and she is the only one in the world. He will never have any home but this place until he is able to get out and do for himself. You see, Bill—"

"Yes, you see Bill?" the good sister continued, "not being a pretty child is not apt to draw the attention of prospective parents who come to see the orphanage with the idea of adopting children. But Bill is a very bright baby—perhaps the smartest little fellow we have in the home. So many people want girl babies—you would be surprised how much they want them. Girl babies are taken that the boys. And then a red-headed boy," the good sister threw up her hands. "And more than that, Billie is not a very strong baby. He will have to have a great deal of care in order to raise him and make him a strong, robust youth."

Just then, little book, something in Donna's face must have attracted that blessed baby, for he put out his arms to her.

"But, madam," said the sister, "you must have had luck. The man and the woman who have achieved a reputation as hushers have good luck in holding their jobs."

The woman who sees that her children are properly fed and clothed has good luck in raising them. Just as the mother who gives her teething babies cucumbers to chew on has bad luck in losing them. Married couples who use self-control and good nature and good sense in dealing with each other make lucky marriages, just as the selfish and uncontrolled have bad luck. Bad luck is a hoodoo that we can banish by giving it its right name. It is the result of the work by calling a spade a spade, no matter if it does hurt our vanity to do so.

"The stars incline, but do not compel."

HOROSCOPE.
Friday, January 25, 1918.

Mercury rules strongly for good this day, according to the reading of the stars. Venus and Jupiter are slightly adverse.

This is a day when publicity of all sorts is benefited and again the seers declare that the value of advertising will be appreciated and enhanced.

Under the government of the stars whatever tends toward the educational is most fortunate and campaigns for molding public opinion will succeed if begun while this configuration prevails.

The stars forecast a condition of change that in some way is connected with labor problems that affect the rich as well as the poor.

This is not a lucky day for weddings or love affairs. The young should be especially careful, especially those who are ruled by Jupiter.

Investments and speculation are well directed today. Again care and economy that is wise are counseled. After this month the planetary government appears to be strongly indicative of military growth and power. A long war is now predicted and the stars seem to reveal supreme achievements that will be slow.

Women are warned to take unusual care of the health during the next months as they may have nervous handicaps to meet.

The stars presage increase of nervous disorders and maladies affecting the kidneys.

Again the coming of a teacher or prophet is foretold, and he will appear from an island, the seers declare.

Persons whose birthdate it is have the indication of a quiet year in which are many small worries. They should beware of false friends.

Children born on this day may be inclined toward cleanliness and extravagance. These subjects of Aquarius, with Uranus as their principal ruler, are often quite erratic.

Frank Kipper, good gray poet of the Union Printers' Club, last night sang of the waitress who guards his gastronomic destinies as follows:

When Maggie meets a rouse
She makes him a rouse;
And if still he persists,
Her right arm she twists
And lands on his jaw with a Zowie.

Awaiting The Joyful Sound
The Wonderful Music that Hursts Forth When the Stork Arrives.

Who can forget that little brassy cry that echoes the arrival of the new baby?

Before baby comes the mother should get in condition to meet the crisis. Thousands of women have used the safe and reliable application, Mother's Friend, during the waiting months, and they relate how they entirely escaped nausea, nervousness, bearing down, stretching pains and many other debilitating and disheartening experiences which so often afflict the mother for the greatest time in a woman's life.

Mother's Friend is a wonderful help to nature in relieving strains and distress brought about by expanding muscles. The nerves, too, will be calmed, making the period one of cheerful days and restful nights. The breasts are kept in good condition and the abdominal muscles relax with ease when baby is born.

Mother's Friend makes it possible for the expectant mother herself to actually aid nature in the glorious work to be performed, and no woman should neglect or fail to give nature a helping hand. It will mean infinitely less pain at the crisis.

Mother's Friend is for external use only, is absolutely safe and wonderful in its effects. It is prepared by the Bradford Regulator Co., L. S. Lanna Bldg., Atlanta, Ga. Write them for their "Motherhood Book," so valuable to expectant mothers.

Procure a bottle of this famous remedy, which has been used by women with the greatest success for over half a century, from the druggist today, and thus fortify yourself against pain and discomfort. Adv.

OLD-TIME COLD CURE—DRINK TEA!

Get a small package of Hamburg Breast Tea at any pharmacy. Take a tablespoonful of this Hamburg tea, put a cup of boiling water upon it, pour through a sieve and drink a teaspoonful at any time. It is the most effective way to break a cold and cure this and all other colds, relieving congestions. Also loosens the bowels, thus breaking a cold at once. It is inexpensive and entirely vegetable, therefore harmless. Adv.
